2020/2021

ECDs Supported

Universities Supported

Covid-19 Support

OVERVIEW

Despite a very challenging year, Rise Against Hunger Africa distributed over 8.5 million nutritious meals and nearly 120 000 Nutri-Go packs to those in need during the Coronavirus pandemic lockdown period, between March 2020 and February 2021. As many of our normal distribution channels were affected by the lockdown, RAH Africa has been collaborating with many other NGOs, disaster relief organisations and community groups to assist in distributing meals to the most vulnerable. By working with other organisations, we have been able to provide meals in all nine Provinces.

EARLY CHILDHOOD DEVELOPMENT CONNECT PROGRAM (ECD CONNECT)

The core beneficiary focus of Rise Against Hunger Africa (RAH Africa) are children between the ages of 1 to 6 years. Our ECD Connect program focuses on providing nutritious meals to children through ECD centres linking nutrition and education.

During 2020, due to the Coronavirus pandemic and the hard levels of lockdown, many of these facilities were closed. However, we did manage to reach many of our ECDs and Partner ECDs. We were able to support other crèches with meals during this period.

ECD Partner Program

Collaborating with other organisations focusing on ECDs allows
us to expand our reach and impact

Donor requested support for ECDs

Some of our donors wish to support ECDs with whom
they have a relationship with

US meal supported ECDs

Every year we receive meals from our affiliate in the United
States. Some of these meals are allocated to support ECDs

COVID-19 RELIEF

Thanks to the continued support from our loyal donors, we were able to raise significant funding to assist and support many people whose lives were affected by the C-19 pandemic. As we were not able to engage with our corporate volunteers to pack meals, we employed over 27 people on a contract basis to pack our meals in our warehouses nationally. This also created much needed employment during this time.

Working alongside many other reputable and respected organisations RAH Africa distributed meals in all nine provinces. This included NGOs, Disaster Relief organisations, Community Action Groups and direct response to requests for assistance.

SUSTAINABLE VEGETABLE GARDENS

Two of the RAH Africa community vegetable garden initiatives, based in Orange Farm and Diepsloot were able to produce much needed fresh vegetables to various communities during this period. The details of the produce distributed will be in our Sustainable Communities Impact Report.

A SPECIAL THANK YOU

"We would like to thank our donors and partners for your unparalleled and continued support during the past year. It is through your ongoing support that we are able to make the impact and difference in the lives of so many throughout Africa, and we know with your help we can continue to do so much more. We look forward to continuing to grow relationships with you and affording the privilege of food to those who need it most."

Yours sincerely,

Brian Nell,

RAH Africa CEO
