I. ABOUT US

Rise Against Hunger Philippines is a member of the global confederation of Rise Against Hunger, a hunger relief organization that coordinates the distribution of food and other life-saving aid around the world. Since 1998, the organization has coordinated the distribution of food and other lifesaving aid to children and families in 72 countries all over the world.

Rise Against Hunger is driven by the vision of a world without hunger. Our mission is to end hunger in our lifetime by providing food and life-changing aid to the world's most vulnerable and creating a global commitment to mobilize the necessary resources.

The Philippine office was organized in 2015. Since its inception, RAHP has been fulfilling its commitment to contribute to end hunger and reduce malnutrition in the country. It has been facilitating the popular community-supported meal packaging programs that often are part of corporate social responsibility or volunteer service projects. It distributes its meals through feeding programs operated by partner organizations which promote education, encourage children to attend school, improve health and nutrition of children, address gender inequalities and spur economic growth, among others. In addition, the organization also provides meals in response to crisis relief. RAHP has also organized the first and only internationally recognized foodbank in the Philippines. ■

VISION

The servant organization for sustainable food systems that raise productivity

MISSION

Serving the nutritionally at-risk individuals through sustainable access to safe, adequate, and nutritious food sources

Accreditations and Certifications

1. Securities and Exchange Commission
2. Department of Social Welfare and Development
3. Department of Science and Technology
4. Philippine Council for NGO Certification
5. Charities Aid Foundation of America
6. Benevity
7. NGOsource Equivalency Determination to a US Public Charity

Memberships

1. Asian Association of Foodbanks
2. American Chamber of Commerce of the Philippines
3. Philippine Coalition on Volunteerism

II. SUMMARY

In 2019 we have made remarkable and outstanding progress in our commitment of ending hunger by 2030 by expanding our program base and forging new partnerships with corporates and impact partners.

With the help of corporate donors, we continued to implement several dietary supplementation programs in various daycares and schools.

In March 2019, we participated in World Wide Fund for Nature's (WWF Philippines) workshop series entitled **The Sustainable Diner: A Key Ingredient for Sustainable Tourism**. The workshops focused on how restaurants, manufacturers and even consumers could reduce food waste.

In celebration of the National Disaster Resilience Month in July 2019, we teamed up with Manila Water Foundation (MWF) to take part in its disaster response program **Agapay**. The collaboration distributed bottled drinking water, deployed water tankers or Mobile Treatment Plants, and built sanitation interventions for affected families and individuals who were displaced from their homes and communities.

In September 2019, we launched a milestone and sustainable partnership with San Miguel Corporation called **Better World Tondo (BWT)**. The community center includes a foodbank, soup kitchen and an after school learning center for underprivileged children and families in Manila's Tondo district.

In October 2019, Ayala Coop and Ayala Foundation with Laus Group of Companies and Victory Liner, joined forces in a meal packing event that output 55,360 fortified rice-soy meals to support children in several schools in the 2nd district of Pampanga and schools in a fishing community in Bagac, Bataan.

Another milestone community engagement was the supplementary feeding program for 336 indigenous children in Tabuk, Kalinga which was supported by Victory Liner, Rotary Club of Tabuk in Kalinga and Rotary Club Paseo de Roxas, Makati.

Old Navy launched a store campaign which generated funds that provided 10,000 meals to communities affected by the earthquake in Mindanao. The Philippine Red Cross assisted in the distribution of our meal packs.

To increase visibility and awareness, DOOH (Digital Out-of-Home Philippines) and Cafe Lupe signed up as advocacy partners to provide airtime in strategic locations of DOOH digital platforms and venue sponsorship for media interaction at Café Lupe. ■

III. MEAL PACKAGING EVENTS (MPE)

For our meal packaging events, we have generated a total of 1,445,000 fortified rice-soy meals with a total value of PHP 24,257,958. Our corporate engagements generated a total of 8,730 volunteers.

We also continued to increase engagement with corporate donors. The new donors were:

- Agila Group
- Ayala Coop
- Ernst Young
- Factset
- Ingram Micro
- Mindanao Poverty Relief Action (MINPRA)
- PayPal
- Project Kids
- Victory Liner
- Zendesk

Ingram Micro turned-over the 1,800 fortified meal packs to benefit school age children in Tondo, Manila (above). Western Digital packed 56,988 fortified meal packs to support the First 1,000 Days Program in Pampanga and Zambales (right).

- **1,445,000** – number of meals packaged
- **8,730** – number of volunteers involved

IV. DIETARY SUPPLEMENTATION PROGRAM

The Dietary Supplementation Program aims to provide rice-soy fortified meals to children ages two (2) to twelve (12) years old, and other nutritionally-at-risk individuals. RAHP fortified rice-soy meals provided the assisted individuals a total of 250 kcal of energy and 23 micronutrients per one-cup serving.

Monitoring of height and weight of assisted individuals was conducted with the help of partners in the program such as daycare teachers. This helped us evaluate our program's effectiveness in improving the nutritional status of assisted groups.

RAHP partnered with civil society organizations, schools, and local government units that had the capacity to co-implement the said program. RAHP provided the fortified meal packs while the impact partners directly managed the program. The impact partners provided their own counterpart such as volunteer management, meals preparation, monitoring of the nutritional status of children, and reporting. RAHP conducted monitoring visits with impact partners' program areas to further improve the partnership and the program itself. Nutrition education sessions as part of the capacity building with impact partners and beneficiaries are in the pipeline. ■

V. THE FIRST 1,000 DAYS PROGRAM

The First 1,000 Days Program centered on distributing meal packs to 233 pregnant and lactating women and their babies who visited rural health clinics for their antenatal care, postpartum check-ups, mothers' classes, nutrition classes, vitamin supplementation, vaccinations, as well as medical check-ups of their children. The program also provided meals to the other family members of the primary beneficiaries.

This program was done in partnership with the Department of Health Region 3, the Rural Health Unit in Porac, Pampanga which had 179 pregnant/lactating women and the Rural Health Unit in Candelaria, Zambales which had 54 pregnant/lactating women.

Other activities conducted by the Rural Health Unit of Candelaria, Zambales included a cooking demonstration for the meal enhancement, establishing a vegetable garden to provide additional ingredients to our meals and upcycling of the empty meal bags as stuffing for pillows and seeding containers. ■

Rural Health Unit in Porac, Pampanga conducts regular monitoring with the pregnant and lactating women and their children (above). A backyard garden in Candelaria, Zambales re-using empty plastic meal bags (below).

Distribution of meal packs to earthquake displaced families in Porac, Pampanga.

VI. DISASTER RESPONSE

We responded to various calamities and natural disasters that displaced families with a total of 91,800 meals.

During the April 22, 2019 Central Luzon Earthquake, we distributed 24,000 rice-soy fortified meals to 2,100 individuals or 720 Aeta families living in Barangay Camias, Porac, Pampanga.

During the earthquake in Davao del Sur, we partnered with the Philippine Red Cross in providing 21,600 meals for displaced families.

With the help of the Angat Buhay program of Vice President Leni Robredo, we were able to provide 46,200 meals to 14,400 families displaced by Typhoon Tisoy in Bicol and Typhoon Ursula in the Visayas area. ■

• **91,800** -

• **24,000** - rice-soy fortified meal packs distributed to 2,100 individuals or 720 Aeta families in Porac, Pampanga during the April 22, 2019 central earthquake.

• **21,600** - meals distributed to displaced families during the Davao del Sur earthquake.

• **46,200** - meals distributed to 14,400 displaced families during typhoons Tisoy and Ursula in the Visayas area.

Good Food Grocer, Barangay Ususan, Taguig City

VII. FOODBANKING

RAHP established the only national foodbank in the country. Our foodbank facilitates the rescue of donated food and their distribution to the people most in need.

Our foodbank is a member of the Asian Association of Foodbanks. Our Executive Director, Jomar Fleras, gave a presentation of how we operate our foodbank during the AAF meeting in Hong Kong.

Our foodbank is recognized and supported by the Global Foodbanking Network (GFN), an international nonprofit that works towards a hunger-free future in more than 30 countries by creating, sustaining, and strengthening foodbanks. In June 2019,

Craig Nemitz the Director of Field Services of the GFN visited the Good Food Grocer in Taguig City and the Better World Tondo which was under construction at that time. The visit was part of the assessment in our application to join GFN.

GOOD FOOD GROCER

Foodbanking (continued)

In addition, Rise Against Hunger Philippines joined the formal launching of the Asia Foodbank Incubator program of the Global Foodbanking Network. The program aims at accelerating the development and scaling up of foodbanking in the Asia-Pacific region. The three-year Asia Foodbank Incubator program will expand technical support and other services GFN offers across the region by collaborating with eight organizations in seven countries working toward eliminating hunger and food waste in their communities. Our foodbank is one of the eight recognized incubator foodbank.

Dr. Ma. Socorro Ignacio, a member of our Board of Trustees, participated in the launching of the first GFN Asia-Pacific Foodbank Conference in Seoul, South Korea.

We operate a foodbank known as the Good Food Grocer in Barangay Ususan, Taguig City. This foodbank currently has over 350 enrolled families.

In Tondo, we operate Better World Tondo, a joint project between RAHP, San Miguel Corporation and AHA Learning Center. The community center aims to contribute to the improvement of food security of urban poor families and access to quality education of children in Tondo. The 1,000 sq. meters facility has a kitchen, dining area, warehouse, classroom for educational activities, and a Good Food Grocer which serves as the area for distribution of groceries and store for community livelihood products. We operate the daily soup kitchen and foodbank.

Lunch is served for BWT assisted children who are currently enrolled in General Vicente Lim ES. They visit the facility before or after their class schedule (above). The BWT members happily posed for a picture after they received food donations (below).

To date, 681 families are enrolled in the program, of which 246 children participate in the daily feeding. The families receive regular donated food and in return they serve as volunteers in the daily operation of the program. They were organized to regularly help in cooking, cleaning, assisting the children during feeding sessions, and facilitating the attendance and weight monitoring of children, among others. Corporate volunteers conducted different learning sessions with the children and helped in the food preparation.

Foodbanking (continued)

Better World Tondo partnered with different nonprofit organizations working in Tondo. Food donations were also shared to the assisted communities of partner NGOs such as Project Pearls, ERDA Foundation, New Life Tondo, and Cathedral of Praise Daily Manna Foundation, among others.

In the Visayas region, we supported Negrense Volunteers for Change (NVC) Foundation's mobile food bank known as "Mingoy." This retrofitted bus has a soup kitchen, rolling store, and educational space.

We partnered with Bridging Opportunities Philippines, Don Bosco, Roxas Municipality Isabela, Simply Share Foundation, NVC, International Care Ministries and BINHI in the rescue and distribution of food in the provinces of Cagayan, Isabela, Laguna, Cebu, Iloilo, Negros Oriental, Misamis Oriental and Davao. ■

- Iexport
- Makati Diamond Residences
- Mondelez
- Monde Nissin Corporation
- Planet Water
- San Miguel Corporation
- Sodexo
- Unilever Philippines

VIII. RESEARCH GRANT

In September 2019, we received a research grant from the Department of Science and Technology - Philippine Council for Industry, Energy and Emerging Technology Research and Development (DOST-PCIEERD) under the DOST Grants-in-Aid Program. The project is entitled Assessing the Contribution of Food Banking Systems in Addressing Food Security.

The project aims to harness food banking systems in addressing food security by improving the caloric intake and diversity of diets of food insecure individuals and households in Taguig City and Bacolod City. Specifically, the objectives of the research are:

- 1) Develop food banking systems that will increase the availability of affordable, nutritious food products in two cities by setting up food banking systems.
- 2) Validate Nutrition and Food Safety Guidelines for Food banking in local scenario.
- 3) Develop nutrition education sessions for household members to increase the demand for nutritious food products in two cities.
- 4) Assess the contribution of food banking systems in improving the dietary diversity and caloric intake of household beneficiaries.

The project will run for 24 months. We partnered with the University of the Philippines Manila College of Public Health Department of Nutrition for monitoring and evaluation and with the Negrense Volunteers for Change Foundation for implementation of the study in Bacolod City.

From September to December 2019, we focused on sourcing for food donors, establishment of logistics in food rescue, development of monitoring and evaluation protocol, consultative meetings and trainings on food safety, and provision of income-diversification activities for target households.

Meanwhile, we also received a grant from Bayer Philippines to establish an urban demonstration farm in Pamayanang Diego Silang, Barangay Ususan, Taguig City. This project would later serve as an income-diversification activity for household beneficiaries of the study. The monitoring and evaluation of the study will start on the 3rd quarter of 2020. ■

IX. FARM TO FORK

With the help of Negrense Volunteers for Change Foundation, we contracted 222 indigenous landholders tilling over 200 hectares of ancestral land to provide us with the vegetables and fruits that are included in our meal packs. This farm produce was then dehydrated by NVC. The objectives of Farm to Fork were to contract farmers to provide ingredients to our meal packs and to capacitate them in increasing their production.

For 2019, 2.2 tons of dehydrated vegetables worth PhP 1,146,781.32 were ordered from the farmers.

With the support of Negrense Volunteers for Change (NVC) Foundation, farmers' organic vegetables are processed into dehydrated vegetables to prolong its shelf life (above). Kraft Heinz team helped RAHP in one of its regular food distributions in Barangay Ususan, Taguig City (below).

X. VOLUNTEER ENGAGEMENT

For the year 2019, over 9,000 individuals volunteered in our various programs.

In October 2019, Kraft Heinz ambassadors from the United States and other countries visited our communities. Kraft Heinz provides the micro-nutrient powder we put in our rice meals. The ambassadors visited ultrapoor communities of International Care Ministries in Iloilo that received our meal packs. They also visited our community-based feeding program in Calauan, Laguna, the Good Food Grocer in Taguig City, and the Better World Tondo program in Tondo, Manila. They helped in the activities such as serving of meals to children and distribution of rescued groceries to foodbank members.

Corporate volunteers from JP Morgan Chase and Co. supported the Better World Tondo operation. They helped in the meal preparation, and assisted AHA Learning Center in tutorial sessions.

Zendesk volunteers supported the supplementary feeding program of the daycare centers in Barangay Ususan, Taguig City. Once a week, the volunteers helped in the meal preparation. ■
